

KUNAL KASHYAP

Data Scientist

☎ +91-9958334257 ✉ kunalgeminikumar@gmail.com 🔗 <https://www.linkedin.com/in/kunal-kashyap2909/>

Summary

Aspiring Data Scientist with a solid foundation in machine learning, statistics, and data analysis. Skilled in Python, SQL, and data science libraries such as Pandas and Scikit-learn. Hands-on experience in data preprocessing, model building, and visualization. Eager to apply analytical skills to solve real-world problems and grow in a collaborative, fast-paced environment.

Skills

Programming: Python (NumPy, Pandas, Scikit-learn), SQL

Machine Learning: Regression, Classification, Clustering, Model Evaluation, Feature Engineering, Model Tuning, Cross-validation

Deep Learning: Neural Networks, CNN, RNN, Transformers (Basics), PyTorch, Tensorflow

Statistics: Probability, Hypothesis Testing, Statistical Analysis

Data Skills: Data Cleaning, EDA, Handling Imbalanced Data, Data Visualization (Matplotlib, Seaborn, Plotly)

Tools: Vscode, Jupyter Notebook, Git, Streamlit

Experience

Machine Learning Intern

Jan 2026 – Apr 2026

Unified Mentor Pvt. Ltd., India

Tools: Python, Scikit-learn, Streamlit

- Built a workforce attrition prediction model using Logistic Regression on 25K+ records, achieving 88% accuracy.
- Performed data preprocessing, feature engineering, and EDA to improve model interpretability and performance.
- Deployed an interactive Streamlit dashboard for real-time attrition risk analysis.

Data Science Intern

Nov 2025 – Jan 2026

InLighnX Global Pvt. Ltd., India

Tools: Python, XGBoost, Streamlit

- Developed a laptop price prediction model using XGBoost Regressor on 2K+ data points, achieving an R^2 score of 0.91.
- Conducted data cleaning, feature selection, and hyperparameter tuning for improved regression performance.
- Built and deployed a Streamlit web app for real-time price estimation.

Projects

Workforce Attrition Prediction System | Python, ML, Streamlit

- Built a Logistic Regression model on 25K+ records, achieving 88% accuracy to predict employee churn risk.
- Performed feature engineering and EDA, improving model interpretability and prediction performance by 15%.
- Deployed a Streamlit dashboard enabling real-time attrition analysis, supporting retention strategies improving employee retention by 30%.

Laptop Price Prediction System | Python, XGBoost, Streamlit

- Developed an XGBoost regression model on 2K+ data points, achieving an R^2 score of 0.91.
- Applied feature selection and hyperparameter tuning, improving model performance and prediction accuracy by 15%.
- Built and deployed an interactive Streamlit app for real-time price estimation based on user inputs.

Awards & Certifications

- **Professional Data Science with AI & ML – MMIT (2025):** Completed hands-on training in Python, SQL, Machine Learning, Deep Learning, NLP, and Computer Vision; secured A++ grade.
- **Gemini Certified Student – Google for Education (2025):** Demonstrated proficiency in applying Google AI tools and foundational AI concepts.

Education

Bachelor of Arts (Hons) English

Graduated: 2025

University of Delhi, New Delhi

CGPA: 6.75 / 10
